

# Paddle Depacker-S

The Paddle Depacker Model S efficiently separates packaging from organic material, delivering clean organic output with a purity of up to 99.7%\*. Its user-friendly, low-maintenance design makes it stand out from other systems. With a production capacity of up to 3 tons per hour, the Paddle Depacker Model S effectively reduces waste volume and produces a clean organic product, ideal for biogas installations and compost plants.

## Features:

- Cleanest organic soup: with official lab test results > 99,7%\*
- Supermarket waste, restaurant waste
- Variable screen sizes available
- Heavy duty execution
- Quick opening doors for easy cleaning

*\*depending on material composition*

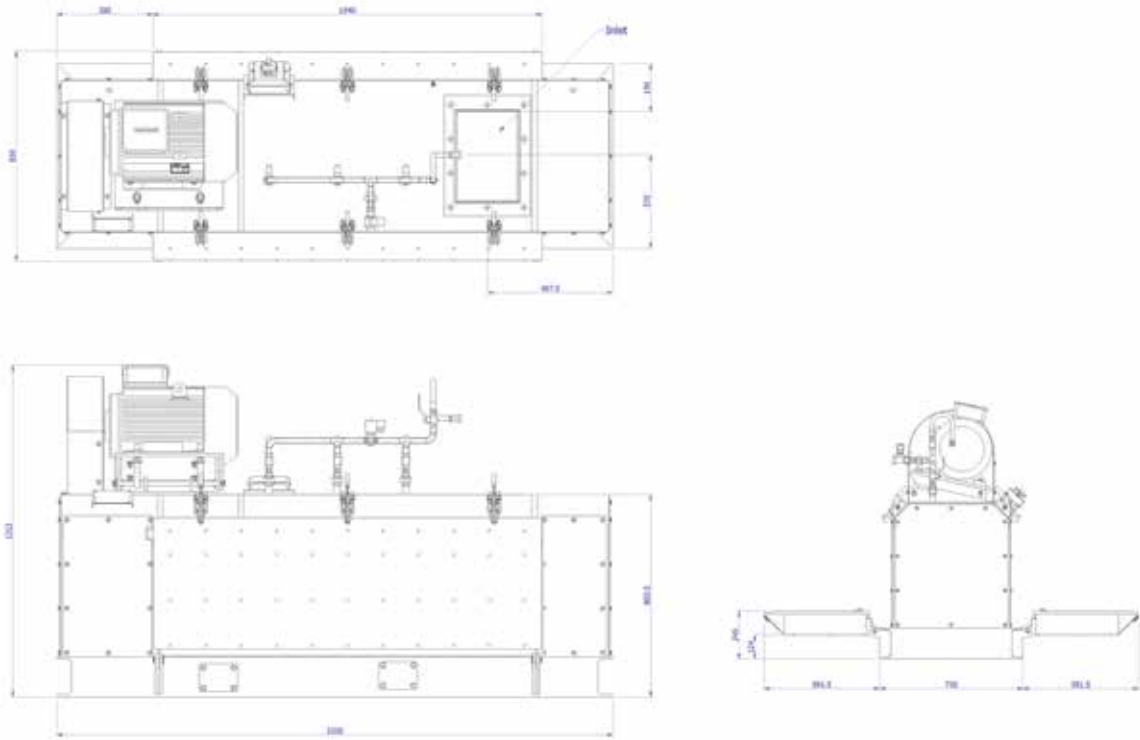

## Capacity:

- Up to 5m<sup>3</sup>/hr per machine

*Complete Model S line*
